AMCAS® Application Grade Conversion Guide

During the verification process, AMCAS converts most standard undergraduate transcript grades to AMCAS grades based on conversion information provided by colleges and universities. The AMCAS GPA provides medical schools with a standard way to compare each applicant’s academic record. AMCAS GPAs may differ from the GPA shown on your records at the institutions you have attended. The following tool will help guide you to estimate your AMCAS grade point average.

Your AMCAS Verified GPA is accessible on the printable version of your application once AMCAS processing is complete. You may find additional information about grade conversions in the AMCAS Instruction Manual.

The AMCAS Grade Conversion Guide is for personal reference. Do not enter the estimates below on your AMCAS application, you must enter course information as it appears on your official transcript.

**STEP 1** Create a worksheet for each Academic Status (freshman, sophomore, etc.).

**Status: Freshman**

<table>

**STEP 2** List each of your courses and grades as they appear on your transcript.

**STEP 3** Using the Grade Conversion Tables below, select the AMCAS grade and corresponding weight for each class.

If your school uses a quarter hour system, use this table to convert your credits to semester hours. For any other credit system, ask your advisor or Registrar for semester conversion values.

<td>13.3</td>
</tr>
</tbody>
</table>

**STEP 4** Calculate the Quality Points for each class using the following formula: [AMCAS Weight x Semester Hours = Quality Points].

STEP 6  Estimate your GPA for each Academic Status, using the following formula:

\[
\text{GPA} = \frac{\text{Total Quality Points}}{\text{Total Semester Hours}}
\]

STEP 7  Estimate your Cumulative GPA, using the formula in Step 5. Include undergraduate post-baccalaureate courses in your cumulative undergraduate GPA. Do not include graduate courses in your cumulative GPA—calculate these separately.

STEP 8  Highlight all of the courses you classified as Biology, Chemistry, Physics, and Math. Use the formula in Step 5 to calculate your estimated BCPM GPA.
