Every Medical School Is Different.
Why do you want to be a doctor?
Because I love helping people!
Experiences are a tool.
Who Are You?
What is a competency?

A competency is an observable behavior that combines knowledge, skills, values, and attitudes related to a specific activity.

What competencies would medical schools want?
Group Activity

How would medical schools assess applicants on these?

What types of interviews would work best?

Provide example scenarios or questions that they could ask to gauge this in applicants?

Can you think of any other creative ways medical schools could identify these traits?
- Academics/MCAT
- Disadvantaged Statement
- Biographic Information
- Personal Statement
- Letters of Recommendation
- Experiences Page
- Supplemental Application
