SQ 2021 Test Prep 103:

Journal Article Analysis and Reading Comprehension Clubs
Select Sundays 7:10 pm via Zoom

Journal Article Analysis | Apr. 18 & May 23

To improve your reading comprehension skills, you must practice analyzing what you read, and what better way to do that, than discuss samples of writing with your peers in our Reading Club. We will meet monthly with a passage in hand that you should be prepared to discuss at length. Topics covered will be everything will come from popular sources on the humanities, social sciences, and natural sciences. Everyone is welcome, although, we will be putting an eye towards reading comprehension as it applies to standardized tests such as the GRE, DAT/OAT, and the MCAT.

Reading Comprehension | Apr. 25 & May 30

To improve your ability to analyze scientific papers, you must read and pick those papers apart, and what better way to do that, than discuss scientific journal articles with your peers in our Journal Club. We will meet monthly with a peer-reviewed article in hand that you should be prepared to discuss at length. Topics covered will be from peer-reviewed scientific journals such as Science, Nature, PLoS ONE, etc. Everyone is welcome, although, we will be putting an eye towards reading comprehension as it applies to the MCAT.

Details on how to receive the readings will be posted at the beginning of SQ.
